### ABOUT THESE TABLES

Rates are for 2005-08 model passenger vehicles during calendar years 2006-08. Not every model year is included for every vehicle. If a vehicle was substantially
temporarily removed in 2005-08, only the most recent design is included.

Note: The Chevrolet Malibu was redesigned in 2008, but the 2007 model continued to be sold as the
Malibu Classic, so both the new and the previous design are included.

### KEY

Overall: all crash types; numbers in parentheses are

- 95 percent confidence bands
- mv/driver rate in multiple-vehicle crashes
- as driver death rate in single-vehicle crashes
- rollover driver death rate in single-vehicle rollovers

### PER MILLION REGISTERED VEHICLE YEARS
